

Purpose of website

The website is built with the basic intention of creating a platform where users can discuss on certain topic with the members of the website. The site can be used as the public discussion board, as well as internal within the organization or even within a department of organization to show notices and to carry out the informal discussion on any issues that might be faced within the office, such as issues related to transportation, canteen, any particular event etc. can be discussed on a free platform.

The website is essentially a discussion form that can be used anywhere at private as well as public scale to carry out discussion on any topic that the community needs to work on.

The users must register with the email and password first to gain access to the website. They also have to confirm their email when they click the register button. After that they can login to the website and see all the topics posted by other users and also they can add comments to it or they can start their own topic. If the user forgot their password, they can also reset it with the help of their email address.

The website also has a set of rules where users can only post genuine content. Racist topic and content are strictly prohibited. No hate speech comments allowed. Bullying a member of community is also not allowed on the website. Moreover, posting of any sexual content is strictly prohibited. If any of the listed rules are broken by anybody a strict action can be taken against them.
